TO WHOM IT MAY CONCERN

Mr. SHAILESH KADAKIA has tutored me for past four months teaching me STATISTICS, principles and practices. He has a crawl, walk, and run method which helped me learn this subject matter meticulously. Now I can understand the terminology used and calculate different types of probabilities. He has shown me the practical application of the subject for real world situations. I have an old calculator which I am now putting to use for this subject. He assisted me greatly by providing instructions to perform complex computations using simple steps. I have taken this subject twice before and obtained a 'C' at best. I am now confident in my mastery of this subject, credit solely to Mr. Kadakia. I whole heartedly recommend him to your organization. Please do not hesitate to contact me for further information.

A handwritten signature in cursive script that reads "Edward Larkins".
