Dedicated, Patient, and knowledgeable Tutor

Shailesh (Sky) taught my son Aneesh, Astronomy. I found him to be very dedicated, punctual, and very focused. He makes his sessions interactive, fun & comfortable for his students. He places particular emphasis on establishing a rapport with his students to ensure that they have smooth learning experience. He changes his teaching style to adapt to his students (my son preferred to be quizzed a lot to ensure that he has understood the concepts). Also, he provided very good notes on the subject matter he taught.

I would recommend Sky for his good work (2 thumbs up).

Hi Sky - Wanted to inform you that Aneesh scored 48/50 in his final exam. He has

turned in all his assignments and he is awaiting a grade

Thanks for all your help

PS: Aneesh got an A in astronomy. I want to thank you for your help. He did pretty well in the end. The teacher was quite strict in grading
